From Risk Management to Innovative customer solutions : 'The Global approach to Customer relations'

We are :

- Part of a group considered one of the largest Global risk consultants & Insurance brokers,
- Effective in negotiating for our clients to provide the most suitable, cost-effective solutions.

However, we believe that most of our clients choose us for our ability to be a critical partner in their activities, assisting them in their future growth and development. *We aim to provide clients with original and innovative solutions that help empower their entrepreneurial mindset and at the same time provide balance sheet protection through asset protection, risk transfer and protection of a companies most value assets, Human Capital.*

What do you as a company care about most?

Being able to deliver your goods or services effectively, access to effective financing and rating solutions, sustainability and more importantly profitability? Do you also consider Protection of assets and Personnel and creating a sustainable business model in whatever local environment you find yourself operating within ,form part of your corporate philosophy?

Willis Towers Watson group is a large Multinational company and we are privileged to be their representative partner in Iraq. We can assist you in finding effective insurance and Risk Management solutions which meet or perhaps exceed your desired objectives. Through its global reach and knowledge base we can sometimes assist clients with more than just these aspects of your operations. The ability to provide multi territory services with local relationships possible in each location is a key factor in clients choosing us as partner company.

At Al Shorouq, we can provide you with a local service combined with an International level of knowledge and experience.

the 'Customer Service' philosophy in action

Customer service is at the heart of our approach

A holistic approach to corporate risk :

Designing the most efficient corporate insurance solutions is our first commitment to our clients. We build strategic and holistic solutions, with a special focus on our client's financial and strategic concerns. We have experts in Risk Management who can team up with audit and corporate finance specialists, to ensure this success.

When any of our clients faces a significant challenge, access to a Client Solution Committee who can make appropriate recommendations.

Claims management during crisis' peaks:

Evaluating the damage and preventing delays in payment is our first objective whenever a claim occurs. This is even more critical in the case of a major loss which can affect the ongoing operation of a clients business. Our objective is to immediately contact our customers and arrange prompt loss evaluation, to try to avoid delays and be able to commence the claim procedure such as starting to process urgent advance payment requests to insurers to enable recovery of a clients business activities as quickly as possible.
